

**MESSAGE OF H.M.E.H. PRINCE JOSÉ
GRAND MASTER AND HEAD OF STATE OF KMFAP,
PATRON OF IBSSA
TO ALL THE PARTICIPANTS OF
THE 21ST IBSSA CONGRESS AND
THE “PARTNERSHIP FOR SECURITY” INTERNATIONAL CONFERENCE**

Yuval Noah Harari, a brilliant Professor of the Department of History at the Hebrew University of Jerusalem, wrote that 70.000 years ago our ancestors were insignificant animals with no impact on the World, and that what made Humans control the Planet was their capacity to cooperate and work collectively in a very flexible manner.

We all know that communities like families, villages, cities and nations were created not only to divide the burden of the work but also to have a stronger defence against enemies, or better saying to have a better Security.

Nobody can live well without feeling secure and providing Security is the work of a team, not of individuals alone.

Cooperation among individuals, companies and official or private entities at international level, as well Training as a form of sharing the knowledge and of better the professional level of its members, has been for many years the very valuable work of IBSSA, therefore, on this occasion, as I can not be present I want to salute all of those who dedicate their lives to the Security of all.

I also want to salute one more edition of the Partnership for Security because Partnership is the highest form of team work and, as Henry For said: “Coming together is a Beginning, staying together is Progress, working together is Success” so it is SUCCESS that I wish to you all, participants and organizers of the Congress and of the Conference about Partnership for Security.

Work together, and never forget that when I is replaced by **WE**, even **ILLNESS** becomes **WELLNESS**

José, Prince
