

To: All IBSSA members

We are now dealing with a world crisis because of the terror attack against Preferring destination in America.

Our friends, whose representatives the country's which being the victims of routinely attacks, aware very well to all this crimes and inhuman actions, but no distinction are being made and there for innocent people getting heart.

There is no doubt that we are witnesses to the biggest and the worst terror attack in the History, attack which probably will bring to a critical change in security Point of view, and in the security concept of the peace and democratic western Countries.

We would like to bow our head these days for a signal of identity with the victims and the many injured people, and we are sending lots of encouragement to our friends in America.

I have no doubt that all of us members of IBSSA, whose representatives more Than 65 Countries all around the world, will producing the lessons and do every possible thing intentionally in prophase to promote the security in areas which we responsible of them.
